Experience

Fiverr-Freelance Front-End Developer

05/06/2022 - PRESENT, Remote

I am a freelance front-end developer on Fiverr, where I offer my services to create visually appealing and functional websites for clients around the world.

Creative IT Institute - Responsive Web Design - Intern

2023- Dhanmondi

My internship at Creative IT Institution greatly boosted my web design skills. Building on a year of prior learning, I worked with an experienced team to create visually appealing, responsive websites. Collaboration improved my problem-solving and teamwork abilities. This internship has been crucial in my development as a web designer, equipping me with valuable skills and insights for future projects.

Education

New Model University College - BA in English Literature

2016-2020, Dhanmondi

I believe that an English Literature degree has helped me develop strong communication, critical thinking, and creative thinking skills, which are essential for success in many areas of life.

Creative IT Institute - Responsive Web Design

2022- Dhanmondi

Web design is a creative field that allows me to express my ideas and skills through the creation of websites. This can help me to develop my creativity and problem-solving skills.
